

Lancashire Linus

Double Cut Scramble Block

Start with a selection of 8" or 10" squares – stash is good!! – Stack up the squares with right side uppermost.

For 8" squares cut 5 ½" off

For 10" squares cut 6 ½" off

Method; - use ¼" seam allowance throughout -

1. Make two piles of fabric – 1 x large pieces / 1 x small pieces
2. Turn the small pile over
3. Taking one from the large pile and one from the small pile (not the same fabric) sew the pieces together
4. Press the seam to the side

5. Turn the block and cut in HALF - 8" = 4" pieces (10" = 5" pieces)
6. Mix up the new halves and sew them together as shown.

8" will finish at approx.. 7 ½"
10" will finish approx.. 9 ¼"
