

## Quick Squares and Rectangles

- This pattern is for a quilt roughly 32" square. It is made up of 4 blocks.
- Start with 4 x 18" square pieces of fabric. Use fabric with good contrasts.
- Stack the 4 pieces on top of each other. Cut through all layers as follows:

- Reassemble the squares with the colours as evenly distributed as possible.
- Sew the strips of 4 oblongs together and then the strips of 3 squares together.
- Reassemble putting the 4" x 18" oblong either as shown or in a different position on each square.
- Trim the four squares - they may end up approx. 16"-16.5" square - and then sew these four squares together turning them whichever way round will distribute the fabrics most evenly.

You can make a larger quilt by increasing the number of fabrics used and making extra blocks.
