

Scrap Quilt 1.

Use lots of different multicolour fabrics from your 'scrap bag'.

Cut fabrics into rectangles 3.5 inches x 6.5 inches.

Use $\frac{1}{4}$ inch seam allowances.

Start in the centre and work outwards as shown in the diagram below.

Sew short strips together to make longer strips (e.g. 5a to 5b) before attaching to the previous section.

You can make the quilt top as large as required by increasing the number of rectangles in each round (making it oblong or square) and/or adding borders.
